

Pillywiggins - Gardeners for Life

Pilly...what?! Pillywiggins are flower fairies found in English & Welsh folklore. Their duty is to protect Mother Nature & tend to her blooms. Pillywiggins Garden continues this tradition by providing practical landscape solutions using all-natural, chemical-free garden practices and enchanting garden designs that incorporate native species & heirloom varieties.

We offer 25+ years of experience in landscaping & greenhouse management. We provide fast, friendly, reliable service at affordable rates.

A beautiful landscape is essential for any home. Properly installed & maintained designs correct problem areas while adding beauty & value to your home. We believe your landscape should be a safe, inviting oasis for all life. Our goal is to provide healthy environments for pollinators, people, pets & wildlife to enjoy together.

Plant Pillywiggins!

Need perennials, shrubberies or trees? We get them in by the truckload! All Michigan grown. The same trusted brands & varieties found at your local nurseries, garden supply & big box stores - offered at a lower price. We order plants as needed, so we don't have the high cost of overhead to maintain them. This allows us to provide fresh, healthy nursery stock in a wide variety of sizes & we share the savings with our customers. Orders typically arrive within one week, shipped direct from the supplier. Looking for something special? Give us a call! We'll track it down, deliver it to your site and plant it for you too!
